

## Pillar 3

### Session 3.1 Networks/ lab to fab/ecosystems

## Begoña Sánchez

### POINT-Policies for Innovation and Technology

### TECNALIA Research & Innovation

Ms. Begoña Sánchez is Senior Business Development Manager and part of the expert group on Policies for Innovation and Technology at TECNALIA. She is an expert project manager with a large experience in coordinating EC funded projects and strategic evaluations of public policies and research programmes. She has both a theoretical and applied knowledge of European policies and regulations and their impacts. She conducts research on different aspects regarding innovation policies, systems and ecosystems. During most recent years she has been focusing on reindustrialization through digital transformation e.g. in the context of Digital Innovation Hubs initiatives, regulatory aspects related to Digital Single Market, combined funding mechanisms for large scale initiatives (EU-GREAT H2020- Project coordinator) and on regional ecosystems and strategies (e.g. Smart Specialisation through INTERREG projects such as CLUSTERS3 or TRES). She has a Business Management Diploma from the I.E. Business School, a Diplôme d'Etudes Européennes from the Université Catholique de Louvain and a B.Sc. in Economics and Business (International Economics and Development) from the University of Basque Country.

Previous working experience includes private consultancy firms, Basque Country Regional Delegation in Brussels and a stage at the EC.  
Working Languages: Spanish (mother tongue), English, French and Italian.
