

## Pillar 3

### Session 3.4 Co-programming Partnerships

## Riikka Virkkunen

### Co-Chair

### Factories of the Future

Dr. Riikka Virkkunen is research manager at VTT Technical research Centre of Finland Ltd. Her main responsibilities are promoting VTT's strategy and boosting of European research in the area of Digitalizing Industries. She has been leading the preparation of VTT's strategy on Industrial Renewal with the focus on business disruption in manufacturing industries, renewal of production and new ways to engage users and customers. Virkkunen has long experience in European collaboration networks, projects and evaluation of diverse funding initiatives. Since 2018, Virkkunen is member of EFFRA board and co-chair of the Factories of the Future partnership board. Virkkunen has about 20 years of professional management experience at VTT. She has also been coordinating FIIF, the Finnish Industrial Internet Forum, with ca. 200 company members. Virkkunen holds a PhD in Computational Materials Physics.
