

## Pillar 2

### Session 2.5 Standard setting

## Luc Van den Berghe

### Project Manager – Market Perspectives and Innovation

#### CEN-CENELEC

Luc Van den Berghe joined CEN in 1990. For many years, he provided support to ICT standardization activities in CEN, in a broad range of areas (eAccessibility, eGovernment, eLearning, eSignatures, biometrics, etc). More recently, he then became involved in new broad areas of relevance for European Standardization, such as smart grids, nuclear energy and defence standardization. Today, he works in the Market Perspectives and Innovation Department of the CEN-CENELEC Management Centre, linking research and innovation projects with standardization.

He is the secretary of the CEN-CENELEC Joint Working Group on Standardization, Innovation and Research which group aims to turn the concept of integration of research and innovation with standardization into action.
