

Pillar 3

Session 3.5 International cooperation

Nili Mandelblit

Director Aero-Space, Transport, NMP, Research Infrastructures ISERD - The EU R&D Directorate

Dr. Nili Mandelblit is the director of AeroSpace, Transport, Nanotechnology, Advanced Materials and Advanced Manufacturing programs in ISERD, Israel Innovation Authority. The Israel Innovation Authority is responsible for Israel's innovation policy including cooperation with counterpart agencies for the promotion of joint technological innovation programs. ISERD - Israel-Europe R&D Directorate - is Israel's official contact point for the European Union Research Framework Program. In her role, Nili serves as the head delegate of the Israeli government to the European Commission's FP Space, Transport, NMP, and Research Infrastructures Programme Committees.

Nili holds a B.Sc. in Computer Science from the Hebrew University of Jerusalem, and a Ph.D. in Cognitive Science from the University of California, San Diego. Nili conducted her post-doctorate research in Paris, France in the Ecole Polytechnique, CREA. During the years 1998-2009, Nili conducted a career in the High Tech industry in Israel as Director and A-VP of product management and marketing in a number of international software companies. In 2009-2010, Nili served as a lecturer at the MBA (Master of Business Administration) program of Ben Gurion University of the Negev.
