

Pillar 2

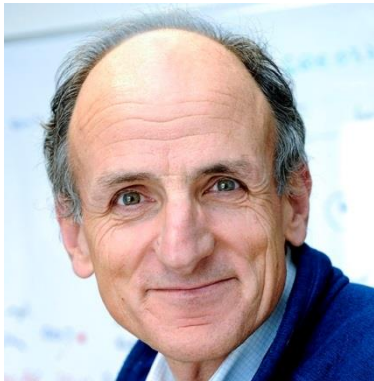

Session 2.2. Medical technologies

Session 2.5 Standard setting

Patrick Boisseau

VP Healthtech

CEATech

Mr Boisseau has 28 year experience in the world of nanomedicine and innovative health technologies, working at CEATech, a French non-for-profit Technology Research Institute.

He managed several leading European collaborative R&D projects in health technologies. He was elected in 2013 as Chairman of the European Technology Platform on Nanomedicine. Patrick Boisseau was appointed in May 2015 as Chairman of ESTHER Industry Driven Initiative on Emerging and Smart Technologies for Healthcare, a joint initiative between the European Commission and the medtech industry.
