CONNECT, CONTROL, AND OPTIMIZE YOUR EQUIPMENT WITH ONE POWERFUL IOT PLATFORM.

openkitchen
IoT for Foodservice Automation
+
CookTek

CookTek's induction cooking systems are known for speed, safety, and energy efficiency. Open Kitchen builds on these advantages with tools to monitor energy consumption, push new cooking profiles remotely, and flag performance issues before they disrupt service.

FEATURES

- Track energy usage per induction unit to optimize power draw and identify inefficiencies.
- Adjust cooking profiles or software via remote updates—great for shifting between buffet, back-of-house, or front-of-house modes.
- Receive diagnostics on coil or power anomalies to reduce service interruptions in high-turnover environments.

Remember to Include the Open Kitchen Bundle with Your Order!*

Purchase 1 year of Open Kitchen with your equipment by including the Open Kitchen bundle at checkout.
