Electric

FLAME BROILER with BUN GRILL

The Broiler Built by Over 50 Years of Experience

In 1969, Nieco® began developing custom solutions to the most common challenges in restaurant kitchens when we installed our first automatic flame broiler in Tomorrowland at Disneyland®. Nieco innovations include automatic broiling that cooks twice as fast, equipment that uses less energy, keeps your kitchen cooler, and reduces emissions, keeping your kitchen cleaner too.

We are proud to introduce the next generation of Nieco's automatic flame broilers for our customers.

FEATURES

- Nieco BroilVection® technology for faster cook times, quicker service and signature flame-broiled flavor
- High-capacity, fast-heating cooking chambers provide more powerful, consistent production of fresh or frozen product than any other commercial electric broiler
- Bun Grill perfectly toasts buns and can operate independently of the broiler
- Dual 13" belts with 2 lanes each — flexible, independent cooking on either belt, choice of feeder options
- Offered in a variety of flow and feeder configurations
- Improved heat-balance for fast, reliable cook-times; grease-management system controls flaming
- Incendalyst® decreases cooking emissions by 85-90%
- Touch Screen Controller for easy operation of both chambers, programmable recipes and on-screen cleaning guide, and future-ready, IoT capability
- Next-generation BroilVection™ system simplifies daily cleaning requirement making it simple to maintain optimal performance and consistent product quality.

HEAT OPTIONS

- Domestic or Export Electric

ACCESSORIES

- Annual Preventative Maintenance Kit
- Daily Time Savings Kit
- Spare Parts Kits: Critical, Motor & Blower, Touch Screen Controls, PTFE Kit

Put the *Most Value* at the Heart of Your Kitchen
