Pre Chill Technology

ChillTech Slim
P/N:10150001

Cold Exchange Technology for Ice Makers

This brilliantly simple device transforms waste into savings by using your machine's own cold drain water to pre-chill incoming water—before it ever hits the ice maker.

Application

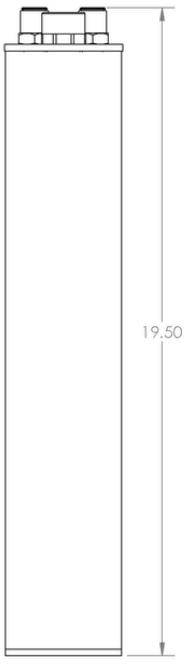

- Ice- up to 600 lb. Cuber

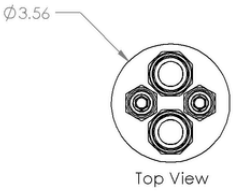

Features

- Increases ice production up to 20% or more!
- Lowers KWH consumption by up to 20%
- Stand alone product
- No electricity required
- Easily connects to cold water feed line

Benefits

The results are a significant reduction in ice maker cycle times and lowering KWH consumption up to 20% while increasing ice making capacity up to 20% or more!

Specifications

Product Dimensions	19.5" H X 3.5" Diameter
Connection	1/2" Push-to-Connect
Product Weight	10 lbs.
