

# Scula de extras dopuri de plastic

1940.1/2BI

0

## Profile

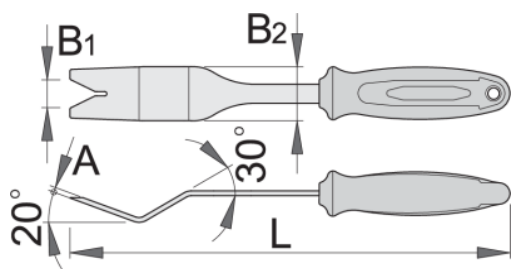

## Caracteristicile produsului

- material: otel carbon de scule
- maner ergonomic rezistent bimaterial
- pentru inlocuirea dopurilor de plastic de la 2 mm la 15 mm
- Scula este destinata pentru extragerea dopurilor de plastic, inlocuirea ornamentelor si pentru tapiterii

## Avantaje:

- varf unghiular
- Forma ergonomica permite utilizarea usoara si sigura in diverse pozitii si in locuri greu accesibile fara a deteriora dopurile extrase sau inlocuite
