

Hanger genie - Hanger alignment tool

1602/5

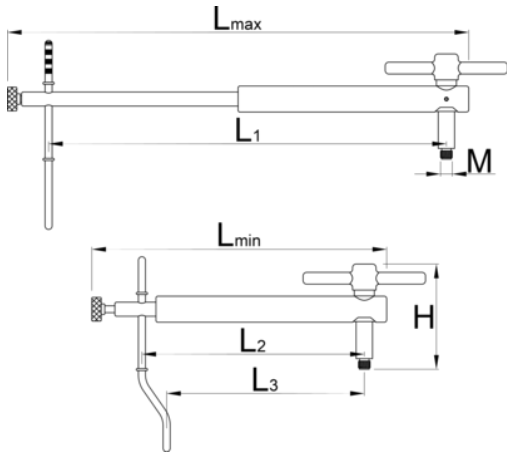

0

Caracteristicile produsului

- Hanger Genie is foldable and precise tool, used for re-aligning rear derailleur hangers and maintaining precise gear shifting. It's compatible with all wheel sizes from 20" to 29"+ and screws directly into rear derailleur hanger threads. Precise

measuring gauge can be locked in place, so you don't lose your measurement when you push it against the wheel in different positions. Thanks to rotating bottom part of the tool, you can easily clear the frame when you work your way around the wheel.
