

Menghina pentru conditii grele

705/2MH

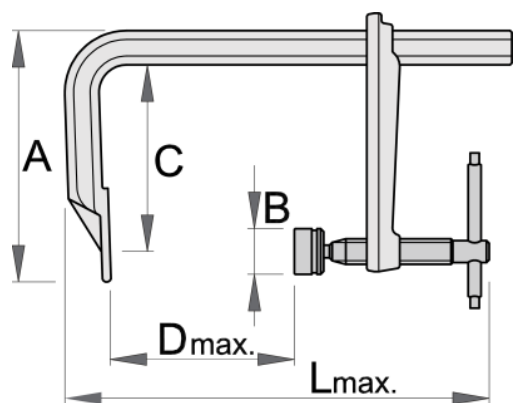

Profile

Caracteristicile produsului

- falca glisanta este forjata din otel special, tratata si acoperita galvanic
- partea mobila este interschimbabila asigurand strangeri ale pieselor profilate. Filetul executat prin rularea asigura o miscare usoara si o forta maxima de strangere
- Partea mobila, surubul si manerul sunt protejate impotriva coroziunii
