

SLV Play remote control

Smart Home users know that the right operating elements are needed to control the different elements as conveniently as possible, particularly with regard to the smart lighting area. The SLV Play Remote Control is not only characterised by its appealing size and appropriately high degree of user convenience, but also because of its extremely self-explanatory and modern operation. Thanks to the simple structure and the plain design, the model is impressive with regard to functionality and also from a visual point of view. In short: the ideal “partner” for individually controlling the “SLV Play” lights in your home (or business premises). Regardless of whether you are calling up, modifying or ending certain scenarios: you can influence the atmosphere in an uncomplicated way at the push of a button. This means that switching on and off and also dimming can be integrated in everyday life in a smarter way. Light switches are no longer required to cover your own four walls in a special kind of light, in the truest sense of the word. You can look forward to your product with the customary SLV quality!

TECHNICAL DATA

| | |
|------------------------------------|----------------------|
| Item no.: | 1002516 |
| Primary nominal voltage | Batteriebetrieb ma/V |
| Nominal voltage | battery operated V |
| Length | 13.5 cm |
| Width | 3.8 cm |
| Height | 3.4 cm |
| Net weight | 0.054 kg |
| Gross weight | 0.083 kg |
| IP Code | IP 20 |
| Safety class | III |
| Color | white |
| Minimum ambient temperature | -20 °C |
| Maximum ambient temperature | 35 °C |

Notes
