

SLV Play LED lamp

A60, controllable RGBW

It's true that there are some things more exciting than a lamp. But, as it often is, the difference is in the details. To be precise, the difference lies in four letters: RGBW – in this case, this means: 16 million colours. The PLAY E27 RGBW LED lamp from SLV creates a unique lighting experience with its LED technology which begins at start-up, continues with the flexible usage options and runs through the entire lifetime of the product like a red thread. Or is the red thread actually green? Or yellow? You can decide. You want to know a bit more? Gladly. SLV PLAY E27 RGBW corresponds to socket type E27 and impresses with a service life of at least 25,000 hours. Furthermore, this lamp provides its user with the advantage of uncomplicated start-up, a wide variety of application areas and appealing values with regard to energy efficiency, among other things. In short: a modern, dimmable lamp which can be used in both private and commercial areas. This lamp is characterised by having luminous intensity of 806 Lumen, a weighted energy consumption of 11.5 Watts and an adjustable colour temperature of between 2,200 and 6,500 Kelvin, plus colour rendering capability of 16 million colours (RGBW). This lamp therefore provides you with excellent possibilities such as emphasising certain locations in a room, focussing on functional use or creating some highlight or other in the living area. The advantages regarding the classic Smart Home are particularly interesting. Not only can this model can be operated using a separately available remote control, app or light switch, it can also be operated by voice with the aid of Amazon Alexa or Google Assistant, and can be used as mood lighting in different modes in conjunction with individually defined scenarios, for example. A hub, a bridge or a gateway are not required. A WLAN signal is required for full usability. You can look forward to your product with the customary SLV quality!

TECHNICAL DATA

Item no.:	1002518
Socket	E27
Lamp type	LED E27
Nominal voltage	220-240V ~50/60Hz V
Height	11.75 cm
Diameter	6.6 cm
Net weight	0.193 kg
Gross weight	0.242 kg
IP Code	IP 20
Energy efficiency index	A
Weighted energy consumption	12 kWh/1000h
Electrical power factor	0,51
Wattage	11.5 W
Lumen	806 lm
Beam angle	240 °
Color	white
CRI	80
Binning	6
Service life	25000 h
Switching cycles	50000
Start-up time	0,5 s
Minimum ambient temperature	-20 °C

Maximum ambient temperature

35 °C

Accessories

1002516	SLV Play remote control
