

LED lamp

GU10 111mm 30° 2700K

High-performance LED HV reflector lamp as an ideal replacement for HV halogen lamps with GU10 socket. This LED lamp is also ideal for use in general lighting applications. LED spotlights create a warm light tone, comparable with halogen lamps, and are ideal for accent and room lighting. LED lamps are compatible with most existing lights with a G10 socket and have been developed specially as replacements for halogen bulbs. LED lamps provide increased energy savings and much lower maintenance costs.
