

LEFA

pendant, four-headed, LED, 3000K, white, dimmable

The four-headed LEFA pendant is characterized by its four high performance warm white COB LEDs, whose brightness can be controlled with the help of a phase trailing edge dimmer. Fitted into an ultra-slim, sophisticated design housing the installed LEDs are powered by the incorporated constant current driver. Thus, the electrical connection can be made directly to 230V mains supply. To extend the series, we offer a wall and ceiling light as well as a recessed version.
