

BEDSIDE

recessed fitting, LED, 3000K, silver-grey, left, with blue orientation light

Designed for space-saving recessed wall installation, the BEDSIDE reading light provides an innovative and user-friendly lighting concept. The elegant luminaire is made from silver-grey coated aluminium and offers professionally manufactured mechanic, along with modern LED technology. If needed, the lamp is unlocked by pressing the blue glowing switch and can be folded out. At the same time, the night light switches to the lamp head that surrounds the incorporated 3W Power LED. A suitable constant current driver providing 700mA is required to operate the recessed luminaire. We strongly recommend our model 464200. This luminaire contains built-in LED lamps.
