# BRENDA

table lamp, LED, 3000K, white/silver, WL USB, 5.4W

The BRENDA LED table lamp is fitted with a powerful Premium LED, and because of its unusual shape, the table lamp provides an indirect, homogeneous lighting effect. A special feature is wireless charging by means of an integrated charging station for Smartphones with Qi 1.2 capability. All you have to do is put the Smartphone down onto the special surface and inductive charging of the battery starts using wireless charging. The BRENDA lamp also has a USB connection for supplying the battery of the mobile device via a USB cable. The integrated LED driver means that it can be directly connected to the 230V mains supply using a Euro plug.
