

## LOGS IN L

Indoor LED recessed wall light, white, 2000-3000K, DIM-TO-WARM

The distinctive LED UP/DOWN recessed wall light LOGS IN L is equipped with an ultra-modern, powerful LED which emits its controllable, warm white light indirectly. It is therefore excellent for glare-free lighting of stairs, staircases and rooms. The LOGS IN L has infinitely variable and completely flicker-free dimming due to the dim-to-warm function. Due to the operating device incorporated in the canopy, the electrical connection is made directly to the 230V mains power supply.

## TECHNICAL DATA
