

Enter the Céliane™ era

 legrand®

Balanced and user-friendly...

Céliane stands for balance between form and function through its combination of circle and rectangle.
An innovative range of colours and materials brings a new esthetic dimension.
You can freely create your own personal style.

Céliane brings you a new, user-friendly way to control your lighting.
Forget the traditional switch's function of simply turning on and off, and discover a whole new gestural language for lighting control you will enjoy. To switch on, switch off or dim the light, let your fingers choose the motion they prefer: a press, a tip, a soft touch...
Control your light in your very own way.

...technology at your service.

Let the rhythm of your home echo your own

Your home reflects your style, it lives at your pace.

Your installation should match your requirements, enhancing your comfort and leisure while ensuring your safety, simply and discreetly. Why not go for a single combined control? Céliane supports your preferences and offers new options.

All our switches are fitted with LED indicators, which last longer and use up less energy. They are designed to control energy-efficient, e.g. compact fluorescent, lamps.

Various Céliane* products will enable you to control and cut your everyday energy consumption.

*They are identified by a green logo you will see throughout this brochure.

Watch and be entertained

You can watch your favourite film in high definition on your wall-mounted screen - no more trailing wires and cables.

Céliane advantages

High definition video link between the sources (DVD, computers, etc.) and the screen. Ultra high quality sound.
Audio and video socket

HDMI socket

Direct access to the screen for multimedia devices (MP3, camcorder).
USB and RCA socket

Exchange information and communicate

Share your own multimedia contents and broadband internet access at high speed anywhere in the home.

➤ Céliane advantages

You can enjoy your videos, pictures and music files stored on your computers with all flushed wires.
Legrand home connection centre and multimedia interface

Universal multimedia socket

Surf the internet with your laptop from anywhere in the home with your wi-fi connection.
Legrand home connection centre, universal multimedia socket and wi-fi access point

Listen and experience

You can have your music with you, wherever you are in your house.

+ Céliane advantages

You can listen to your CDs and all the music files stored on your computers, anywhere in the house.
Multiple sound distribution

1.2 inch touch screen

The sound distribution can be controlled via mini-touch screens.
1.2 inch touch screen

Connect & surf

You can connect your Internet, camcorder, MP3...
at the same point on a single plate that has up to 6 functions.

2x3-gang plate

Céliane advantages

Single connection point for all functions, streamlined connections
with a neat, attractive appearance.

2x3-gang plate (3 sockets + RJ45 + HDMI + USB)

Move around with security

You can easily find your way around the corridors and staircases in your house at night.

Céliane advantages

Pilots lights for areas that are hazardous in the dark.
Automatic pilot light switch

You can find the light switches, for example if a child wakes.
Silent switch with illuminated ring

It is easy to plug and unplug your domestic appliance thanks to the lever.
Socket outlet easy manipulation

Make light your friend

Control the lighting in a new way using different actions.

Touch plate dimmer radio control

Touch control switch

Céliane advantages

You can create and manage different lighting environments, and display the lighting level.
Touch plate dimmer radio control.

Choice of actions for managing lighting environments.
Touch control, lever, touch-sensitive or silent switches.

Live the way you want

For example, you can control the natural light (shutters)

4-scenarios touch control (Basi)

and the artificial lighting (luminaires) from your bed.

4-scenarios micropush control (Basi)

Céliane advantages

Icons and LEDs on the buttons provide a guide and confirm the status of each function.
 4-scenarios touch & micropush control (Basi)

You can choose how you want to manage these key moments, either via wall-mounted transmitters or by remote control. Infrared and radio mobile scenario switch

Concentrate and optimise

Numerous connection and lighting points in the minimum amount of space.

Control of 5 lighting points on one plate

Céliane advantages

You can control all the lighting in one area, from one compact point.
Control of 5 lighting points on one plate

You can be certain of having plenty of sockets on the work surface, ensuring they don't take up too much space.
Quadruple prewired sockets

Protect the environment and save money

Manage your budget by reducing your energy consumption and improve your comfort - fitting in with how you live.

3.5 inches touch screen in «energy management» mode

Céline advantages

Instant management of the heating when windows are opened, and display of consumption.
Temperature control unit and sensor

Personalised programming to reduce heating consumption.
Programmable room thermostat

Warn and protect

You can feel confident in your home with detectors that will warn you if necessary.

Alarm control unit

Céliane advantages

Céliane intruder detection linked to a powerful alarm signal (105 dB) and to a dialer for a remote control.
Caption: wired central alarm unit and siren

Audible or visual warning if there is a leak (gas, water) or smoke. A solenoid valve automatically shuts off the circuits in question.
Gas, flood and smoke detection devices

Simple to control through keypads and without battery badges.
Display keypad & transponder reader

Identify and welcome

With the colour video door entry system, you feel safe. You can identify your visitors and speak to them remotely, and make them feel welcome by switching on your external lighting.

Colour video door entry system

Céliane advantages

Identify visitors in colour on the screen, talk hands free, open the door with a single action, with the possibility of switching on external lighting to illuminate the entrance.
Colour video door entry system with 3.5 inch central screen

Speak to visitors and open doors remotely.
Audio door entry system

Personalisation of how the arrival of visitors is indicated: 13 melodies, adjustable volume.
Chime

Improve or enhance

It is simple to add a control function without having to route any wires or damage walls.

Céliane advantages

Make improvements without damaging the walls using simple wireless functions.
Simple radio light switch, radio centralised roller blind switch

Add a simple scenario control system: lighting and roller blinds that operate together.
4-scenario radio control

Possibility of adding a Céliane Wi-fi access point.

Control and manage

An all-in-one system! You can control all the functions in your house from a 10 inch screen. For example, manage all the scenarios, identify and speak to your visitors or get information on the status of the detectors installed in your house, all from this one central point.

Multimedia touch screen 10" screen

Céliane advantages

Manage all your home automation functions from the TV screen via the multimedia interface.

Multimedia interface

With the "OpenWebNet" open protocol, you can control the system from your favourite mobile, smart phone or iPhone.

Open web net server

Află totul despre gama Céliane pe www.legrand.ro

CÉLIANE, UN NOU STANDARD, O NOUĂ ABORDARE

Cu gama Céliane, beneficiezi de o multitudine de funcțiuni inovatoare pentru realizarea instalațiilor electrice și multimedia, capabile să satisfacă necesitățile actuale ale utilizatorilor.

Céliane™ Surface

Priză la fața peretelui, pentru o mai bună curățenie și siguranță

1 mecanism unic, ref. 0 671 11, compatibil cu 2 tipuri de plăci: pentru noua priză Surface sau pentru prizele tradiționale

Priză Surface, la fața peretelui

Céliane™ Soft

Înterupător silențios, cu apăsare lină

1 mecanism unic ref. 0 670 01 compatibil cu 2 tipuri de plăci: late sau înguste

Céliane™ Intuition

Pornire manuală a iluminatului și oprire automată

Practic, oprește automat iluminatul după 10 minute, dacă este uitat pornit

Céliane™ USB

Încărcător USB dublu, util în fiecare zi

Suport încărcare micro USB

Priză precablată 2P+T Surface + USB dublu

Priză mixtă 2P+T Surface + USB

Céliane™ Wireless

Înterupător wireless radio, care se instalează ușor, fără cablare adițională

Există în varianta kit Céliane gata de instalat. De asemenea, kit-ul este disponibil și pentru gamele Niloé și Mosaic

o COLECȚIE BOGATĂ ÎN FINISAJE

Céliane™ îți oferă o gamă largă de opțiuni de culori și materiale.
