

A system of command and control wireless devices based on Zigbee technology that offers innovative solutions for the renovation of buildings, minimizing the structural interventions. Zigbee is a safe and reliable system because the data exchanged are encrypted and every node of the network always ensures reachability among all the devices (mesh network). The Zigbee devices enrich the range of home&building automation solutions by Gewiss and can be managed via App, with smartphone and tablet, through the Smart Gateway.

Categorie	Window sensor	Culoare	Alb
Material	Plastic	Protocol de comunicații	Zigbee (IEEE 802.15.4)
Tensiune de alimentare	Battery powered	Alimentare Baterii	2 x AAA replaceable
Tip senzor	Magnetic	Output power	3 dBm
Temperature sensor	0...50 °C	Standard	2014/53/EU, EN 60669-2-1, ETSI EN 300 328
Clasă de protecție IP	IP40	Temperatură de funcționare	0 ± +50 °C
Temperatură de stocare	-20 ± +80 °C	Relative humidity (non-condensative)	10 ± 95%
Dimensiuni LxHxP (mm)	76x26x17	Electrocod	051A
