5. USUAL CONNECTION OF RJ 45

6 327 05

Accepts the following cable connectors:
 RJ11 (4 contacts), RJ12 (6 contacts), RJ45 (8 contacts).
 Double colour code EIA – TIA 568 A and B on terminals:
 - STP 9 contacts 360° screen

Conductors supported:
 - AWG 22 to 26
 - Multiple-wire: AWG 26
 - Polyethylene conductor insulation

RJ 45 connectors are equipped with a locking nut that does not require the use of a specific tool and which enables re-cabling in the event of error.

This system allows the wire pairs to be spread easily before mounting them on the connector.

Spreading cables ensures that each pair is separated by the specified 13 mm.

6. STANDARDS AND APPROVALS

Conforms to standards: ISO 11801 Edition 2
 CENELEC EN 50173-1 2007
 EIA/TIA 568-C2
 ISO/IEC series 60603-7
