

2 RCA Male /Male audio cord

Cat. No(s): 0 398 67/68, 0 514 03/04

1. USE

Cord for audio transmission

Straight RCA Stereo Audio - RCA Stereo Audio (cable with multicore cords)

2. DESCRIPTION

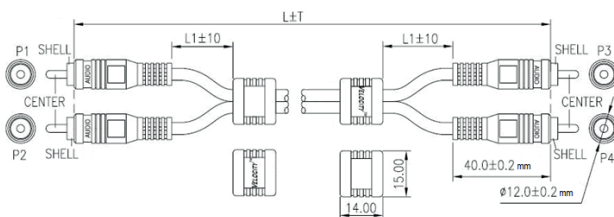

Don't let your interconnects be the weak link in your audio system chain! This audio cable offers excellent sound quality because its bonded construction design delivers a neat, easy connection of audio signals. Twisted pair oxygen-free copper wire and foamed PE dielectric are optimized for audio signal transmission. The low-loss 100% foil and spiral-wound oxygen-free copper shielding protects the delicate signals from electromagnetic interference (EMI) and radio frequency interference (RFI). Colour-coded snagless connectors and an ultra-flexible jacket enable easy installation. 24-karat gold-plated heavy duty contacts ensure a lifetime of performance.

Connector 1: RCA Stereo Audio Male
 Connector 2: RCA Stereo Audio Male

- 100% foil and braid shield protects against noise and interference
- Twisted-pair construction of audio conductors fight noise and hum
- Colour-coded snagless connectors and an ultra-flexible jacket allow for easy installation

3. DIMENSIONS

Cat. Nos	Length (m)
0 398 67, 0 514 03	2
0 398 68, 0 514 04	5

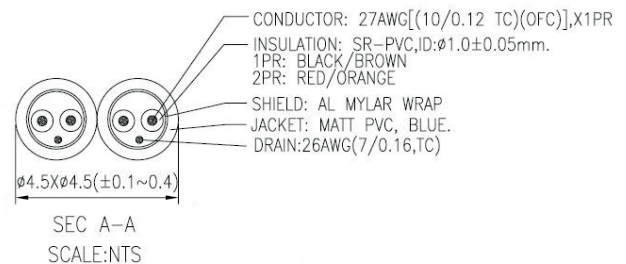

Connector 1 : RCA Stereo Audio Male
 Connector 2 : RCA Stereo Audio Male
 L : 2000/5000mm
 T : +152 / -51mm
 L1 : 200mm

4. PHYSICAL CHARACTERISTICS

Approvals	RoHS compliant
