P600	Flügelbetondose flach Leuchtauslassdose Ø 35 mm	50

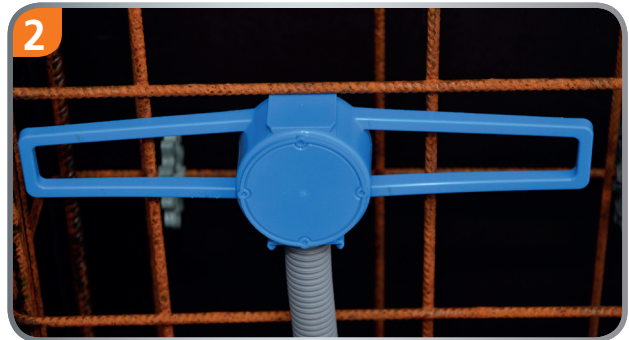

Winged concrete box small

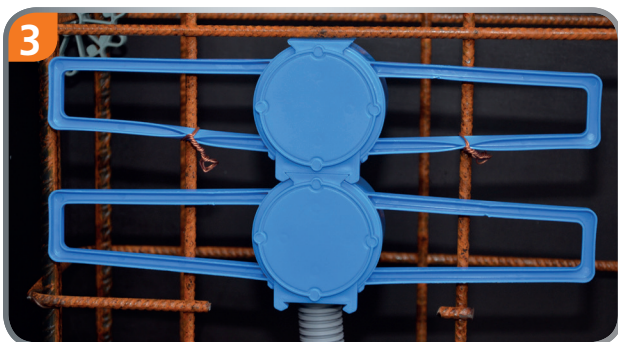

For thin concrete walls / Prefabricated garages

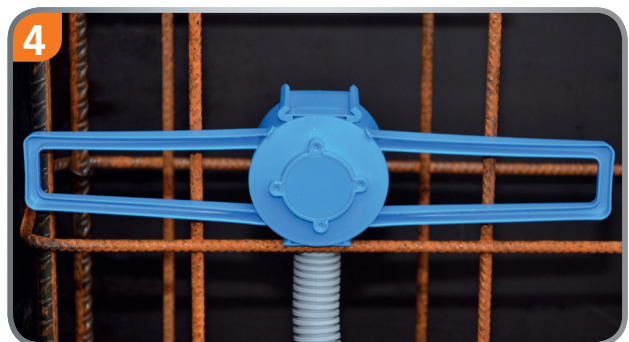

1 Insert concrete pipe and press on the cover. Bind on the steel strutting.

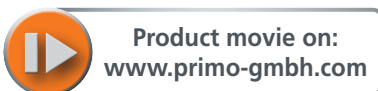

2 Turn the box when you need more than 20 mm concrete cover.

3 The SCS-technology guarantees a fixed connection when you combine the concrete boxes.

4 Also mountable with a light-box cover (outlet 35 mm).
