

EL[®]MARK

The Brand of Electricity

HYDRAULIC CRIMPING PLIERS

HT-300

FUNCTIONS:

- Crimping of aluminum or copper conductors with cable terminals or bush in the corresponding size.

TECHNICAL DATA »

- ∴ Crimping head turning at 360° which facilitates the
- ∴ crimping of static conductors
- ∴ Device for automatic following of the effort at
- ∴ crimping completion
- ∴ Form of the crimping element: hexahedral
- ∴ Size of the crimping element: 16, 25, 35, 50, 70, 95, 120, 150, 185, 240, 300 mm²
- ∴ Section of the crimping conductors:
 - ∴ Al conductors - from 16 to 300 mm²
 - ∴ Cu conductors – from 16 to 240 mm²
- ∴ Element pressing power: 60kN
- ∴ Width of the element: 17mm
- ∴ Weight of the instrument: 3.3 kg
- ∴ Length: 460mm
- ∴ Used hydraulic oil: #15 (hydraulic oil with viscosity 15)

ADVANTAGES:

Metal box for the instrument.

A set of congestion hoops for the hydraulic cylinder
