Diameter (mm)	Full length (m)	Thickness (mm)	Packing/Box (pcs)	Catalogue number
100	1.5	0.1	66	500201
100	3	0.1	42	500101
120	1.5	0.1	45	500203
120	3	0.1	30	500103

## AIR CONDUIT TEXOFLEX

The tube is completed from multilayer aluminum, laminated with polyester, and forced with reinforcement additionally. The material is light and flexible, which helps for its easy use in round or oval connections in the aspiration and ventilation systems. Toxic gases are not being insulated in case of a fire. The product is certified in B1 category - fireproof material.

Diameter (mm)	Full length (m)	Thickness (mm)	Packing/Box (pcs)	Catalogue number
100	1.5	0.1	12	500204
120	1.5	0.1	12	500205
100	3	0.1	12	500104
120	3	0.1	12	500105
