# TECHNICAL SPECIFICATION

## LUMINAIRES

**ELMARK**<sup>®</sup>

The Brand of Electricity

---

### Technical data:

---

- Rated voltage: 230V/50;60Hz
- Type of the fluorescent tube: T5
- Rated wattage: 8W; 13W; 21W; 28W
- Colour of the fluorescent tube: white; blue; green; yellow; red
- Installation: wall and ceiling installation
- Power supply: Electronic control gear
- Protection against dust and moisture: IP20
- Protection class: II
- Surface requirements: F

---

### Features:

---

- Simple and compact design
- Optimum starting and operating mode of the fluorescent tubes
- Economic power consumption
- Steady light emission
- No stroboscopic effect upon mono-phase power supply
- Flicker free
- Absolutely noiseless
- Easy to install

---

### Area of application:

---

- Decorative lighting of indoor areas
- Widely used in lighting of shopping centres
