FOUR POLES 48V ACCESSORIES FOR MAGNETIC LIGHTS

[DESCRIPTION »](#)

Magnetic track rail system with surface, recessed and hanging installation, suitable for commercial sites, homes, hotels, offices and other premises.

The modular LED luminaires we offer can be mounted anywhere along the power rail, and their light can be directed where needed.

An additional convenience of this type of lighting systems is that the power supply passes through the entire length of the rail, even in the presence of an angle, and when there is a need to upgrade the system, only the lamps can be replaced.
