

PRODUCT INFORMATION SHEET

Metal drill bit set

Product description

A set of drill bits for making holes in steel, cast iron, non-ferrous metals and hardened plastics. Drills make it possible to drill precise holes. They are applicable in body shops, locksmiths, car workshops or to work of installers and electricians. For professional use.

Characteristics

- made of durable, hardened HSS steel;
- precisely made and sharpened;
- split-point technology - thanks to the use of specialised grinding, it enables self-centring drilling also in oval surfaces without centre-punching;
- 135° countersink angle;
- manufactured in accordance with the European standard DIN 338;
- cylindrical shank;
- number of elements in the set: 19.
