MANHOLE BOXES WITH COVER AND 4 WAYS OUT

Description

Manhole boxes with covers are specialized enclosures designed for a variety of underground utility and infrastructure applications. They are typically used to provide access to underground areas for maintenance, inspection, and utility access. Manhole boxes are designed to withstand varying levels of weight and load, depending on their intended use. They are available in different load classes to meet specific requirements. Manhole boxes may have multiple access points, including openings for utility lines, pipes, or cables.

Technical characteristics

- Material: PP
- Body colour: RAL 7030 grey
- Type of cover: Blank, grey
- Impact resistance: 08
- Outlet cut sizes:

CP20: D50; D75; D90; D110 mm

CP30: D60 ; D75; D110; D125; D135; D160 mm

CP40: D100; D125; D160; D200; D250 mm

- Ambient temperature: from -25° to 60°C
- Breaking load:

CP20: 7.4kg/cm²

CP30: 4.8kg/ cm²

CP40: 2kg/cm²
