Tender Text

Cover for cable tray/ladder, with joint strip to reduce deflection at the cover joint, protection against penetration of dirt and increase stability with the adjacent cover, with captive premounted turning bolt fasteners. Due to external influences, such as wind loads, outdoor use is only possible with an additional protection (self-tapping screws, steel band etc.). For additional requirements, turning bolt RDRS 9 F and cover retaining spring RDHF 9 E2 can be used.
