Tender Text

Overhead hanger distance profile, for mounting the bracket on the overhead hanger or profile to prevent deformation of the overhead hanger profile when mounting brackets, the overhead hanger distance profile with hexagon bolt must be taken into account for static reasons, in the case of a one-sided attachment of the extension arm to the suspended support profile, the closed side of the bracket should preferably be attached flush with the profile web of the overhead hanger, including proportional fastening accessories SKM 10X80 F and two body panels UGM 10 in hot-dip galvanised. Please observe additional regulations for use in functional maintenance or for suspended ceilings with fire protection requirements (MLAR 2/2015 sample cable system guideline)!
