Descriere articol

- Suitable for bus and power lines or for bus and power combined in one cable
- Easy installation without line interruption due to convenient insulation displacement technology (IDC)
- WINSTA® IDC Supply and Tap-Off Modules allow connection at any location of the flat cable – one rotation per pole is all that is required

Note on mismatching protection:

All WINSTA® components are 100% protected against mismatching when:

- a.) plugging different numbers of poles
- b.) plugging while rotated 180
- c.) plugging while laterally staggered
- d.) plugging one pole

Installation Notes

Conductor termination

Supus modificărilor.

Insert flat cable into base (observe coding!).

Mount IDC module flush with the base.

Screw down contact elements until element stops.

Should the IDC module jam during mounting, turn the upper part by 180° and remount it.

Connecting an installation cable to the supply module:

Secure supply cable via strain relief housing.

Tighten strain relief screw using a screwdriver.

Simply push stripped, solid conductors into unit. Open clamp via screwdriver to insert stripped, fine-stranded conductors.

Installation

Supus modificărilor.

The mounting plate can be centrally mounted, or attached via outboard attachment points using 770-601 Mounting Pins.

Snapping a supply or tap-off module onto a mounting plate.

Safety

After removing the module, the contact holes in the flat cable must be sealed using insulating tape.
