Electrical data

Ratings per IEC/EN 60664-1

Nominal voltage (III/3)	800 V
Rated current	25 A

Approvals Ex

Rated current (Ex e II)	20 A
-------------------------	------

Geometrical Data

Width	13,8 mm / 0.543 inch
Height	19 mm / 0.748 inch
Depth	4,1 mm / 0.161 inch

Material Data

Color	red
Fire load	0,01 MJ
Weight	1,4 g

Commercial data

Packaging type	bag
Country of origin	DE
GTIN	4050821076001
Customs tariff number	85366990990

Installation Notes**Jumpered**

The push-in type jumper bar system is based on the common plug and socket principle. Each terminal block is spring-loaded with a double socket and a resilient CrNi steel spring. The jumper contact material is pure electrolytic copper, which allows for an extremely small design capable of carrying the full-rated current of the terminal block. Ground terminal blocks can also be commoned using the same jumper system. Custom jumpers are created by breaking and removing jumper contacts (2000, 2001, 2002, 2004 Series).

Removing a push-in type jumper bar.

Insert the operating tool between the jumper and and partition wall of the dual jumper slots, then lift up the jumper.

Place the operating tool in the center of jumpers up to five contacts (see above), or alternately on both sides for jumpers with more than five contacts.

Jumpered

Supus modificărilor.

Custom push-in type jumper bars are created by breaking off jumper contacts.

Marking a push-in type jumper bar using a felt-tip pen.

500 V

300 V

Jumpered

An application example: colored push-in type jumper bars are used with sensor terminal blocks.

Jumpered

Supus modificărilor.

Stepping down via push-in type jumper bar.

Stepping down via push-in type jumper bar.

Commoning via closed terminal side with end plate allows jumpering over two cross-section sizes, e.g., from 16 mm² (6 AWG) to 6 mm² (10 AWG) or from 6 mm² (10 AWG) to 2.5 mm² (14 AWG) (see illustration above).
