Introducing Zing Platform

An intelligent classroom learning companion where children participate in engaging activities, quizzes, and challenges during live sessions.

Meet Doodle

A smart scanning device that captures your child's written work and turns it into meaningful learning insights. By understanding how your child solves problems and expresses ideas, Doodle helps tutors provide better, more personalized guidance.

Parents Google Review

“

Ms. Radhika was so patiently worked with all kids. Her story telling skills are awesome. Hayan enjoyed throughout the session and keen to learn more about victory of Lord Krishna over Kansa.

Hello Myself Nidhi Balaganvi from UK (London) and My daughter Sarah Saini is taking Gita Classes with Amrita she is the BEST teacher I have ever seen. She encourages my daughter and also 100% engaged with her. Her teaching skills are amazing! She is talented! She make sure Sarah tell all the slokas properly and also she explain the stories so nicely. She is very kind too. She make sure my daughter revise the previous class story and also ask questions in between. She is a great person as she speaks to me as well so respectfully. My daughter is totally enjoying these classes because her teacher is great! And also other staff helped me to book and renew the classes so over all we are having great experience with Bambinos.

“

Based in Perth, Australia, my 8-year-old son has been enjoying Bhagavad Gita classes for a year with Bambinos. He eagerly anticipates sessions with Ms. Subha Shree, whose caring demeanor makes each class engaging. He's now chanting slokas and learning stories connected to life lessons. Bambinos software is advanced and user-friendly. Despite initial sales team issues, they were resolved over time. Highly recommend the platform for its enriching educational experience.
