During the first half of the program, through music, dance and program notes, listeners will be transported to the ancient cities of Andalusia where orientalism and mysticism held sway. During the second part of the program, listeners will experience the heart stopping excitement of a special Gypsy celebration known as a juerga.

## SERENATA ANDALUZA

Our closing selection is also a dance from Andalucia. It evokes the delicious and sensuous rhythms of the ancient temple dancers at Cadiz and the beautiful melodies that are such a part of Andalucia.

(Note to Kevin) two main rhythms are involved in this piece and like some of our other pieces they are so very evocative. We will sometimes be playing these two rhythms against one another, I hope you will find it as interesting as Steven and I did. Also hope the notes help you as you wend your way through this barrage of new arrangements. Thanks for the invite today it was such a treat to get out and listen to some music for a change. The wine is one of Spain's best whites, enjoy.
