

# G4 Combat Shirt - 105 - Male

**MATERIAL SPECS:** 152 g/m2 Modacrylic/Viscose/Nylon Jersey  
185 g/m2 VTX Ripstop Stretch NyCo

The G4 Combat Shirt is optimized for use under body armor and features lightweight, durable, stretch VTX Ripstop fabric in the sleeves. VTX Ripstop is fast drying and extremely breathable. The torso fabric is a lightweight, flame resistant jersey that wicks moisture away from the skin for comfort when worn under armor or other load bearing vests. Zippered shoulder pockets have internal expansion, set-in loop for badges, and a low profile pen pocket. Cuffs have adjustable velcro closures to keep out sand and dirt. The hem is longer in the back to ensure the shirt stays tucked in. Elbow pads are removable and provide protection against rocks, terrain and hazar.
