# **Northeast Technical Institute Opens New Campus in Lewiston**

## ***New Campus will Welcome Career Changers from all of Central Maine***

Northeast Technical Institute (NTI) is a nationally accredited and family owned operated career school with campuses in Scarborough and Bangor, Maine. NTI will open a third campus at the Lewiston Mall this month. NTI has successfully trained and placed students in Medical, IT, HVAC/R and CDL (Professional Truck Drivers) in Maine since 1995. Using a unique Blended Learning approach that combines extensive hands-on training with computer based and instructor led programs, NTI students can complete their programs in as little as six weeks to months. NTI's team of Career Services professionals develop and maintain relationships with employers all across Maine to be able to assist in placing graduates. Many programs are eligible for Financial Aid for those who qualify.

The Lewiston location was chosen to allow students from Franklin, Oxford, Androscoggin, Sagadahoc and others easy access to NTI's training programs. Additionally, employers in the area are anxious to hire successful NTI graduates that possess the in-demand skills and industry certifications to fill open positions.

During a recent phone conversation with Patti Saarinen, WIA Site Manager for Western Maine Community Action (WMCA), she stated that she works with a number of businesses in the area that are looking for qualified candidates with technology, health care and manufacturing skills.

Patti has had a number of clients graduate from NTI and has seen them become successful in their new careers. She commented that she is very excited about the opening of NTI's new Lewiston campus where WMCA can continue that successful partnership to benefit the residents and the development of greater Lewiston/Auburn. She sees a lot of demand!

WMCA is a social service agency that has been providing services for over 45 years to people living in the western mountain region of Maine. The organization is dedicated to the principle that poverty should not be a permanent condition of people's lives.

To learn more about Northeast Technical Institute, visit [ntinow.edu](http://ntinow.edu) or call (800) 447-1151

Northeast Technical Institute is Maine's only locally owned and operated accredited career school, with campuses in Scarborough, Bangor and Lewiston, Maine. NTI is a VA approved school in Bangor and Scarborough and offers Federal Financial Aid for many of its programs and for those who qualify. With its short-term, hands-on approach to training, NTI graduates are job-ready, may earn national certification and are prepared to meet the industry's overwhelming needs and demands for qualified professionals. The school offers in-demand training for a range of medical programs, including Medical Assistant, Medical Lab Assistant, Medical Coding and Billing, Phlebotomy, Information Technology (PC Repair, Network Administration), HVAC/R and CDL Truck Driving. Classes start each week or month for most programs.
