Drinktec 2022: BEVMAQ GmbH shows the future of the used machinery trading

Quakenbrück, 09/06/2022

From 13 - 17 September 2022, the international beverage and liquid food industry will meet at the Drinktec 2022 trade fair in Munich. The used machinery experts of BEVMAQ GmbH will exhibit for the first time at the world's leading trade fair.

In Hall C6, Booth 544, BEVMAQ will show how easy it can be to sell and buy used beverage machines worldwide.

Founded at the end of 2021, the company offers beverage producers an all-round carefree package when selling and buying used beverage machines.

"With our transactional online platform and our full-service concept, we focus on transparency, simplicity and internationality. We stand for the future of used machinery trading. We want to show this in more detail to the international trade audience at Drinktec," says BEVMAQ Managing Director Carsten Hormes.

Visitors can offer their used machines for sale directly at the trade show. The BEVMAQ team will provide a free market-value-assessment and show suitable marketing options. For beverage producers who need new machine capacity at short notice, the company offers used beverage machines with direct availability.

"For us, Drinktec is the industry highlight of the year. Being there in Munich this year will be a very special experience," adds Hormes.
