BIOGRAPHY

John DeGroot brings over 15 years of experience evaluating, estimating, and managing complex property losses, including large-loss residential and commercial exposures. As a building consultant professional, John has extensive expertise in construction estimating, damage assessment, scope development, and stakeholder communication.

John is recognized for his technical accuracy, thorough documentation, and the ability to manage high-severity claims involving structural, environmental, and specialty-trade components.

As a Senior Consultant, John has proven experience mentoring, delivering technical presentations, and supporting catastrophe operations.
