BIOGRAPHY

MATT NEVILL is a seasoned restoration professional with over seven years of hands-on experience managing restoration projects from the initial assessment phase through to final completion. His career in the restoration industry has been defined by his meticulous attention to detail and deep understanding of damage assessment, remediation planning, and execution. Matt has led diverse projects, including fire, water, and mold damage restorations, consistently ensuring they meet or exceed industry standards and safety regulations. His ability to develop accurate timelines and manage complex project logistics has made him a reliable leader in high-pressure environments.

Throughout his career, Matt has demonstrated exceptional project management skills, seamlessly coordinating between contractors, clients, and regulatory bodies to keep projects on track and within budget. He is known for his clear communication, integrity, and dedication to providing top-tier service. Matt's client-centered approach has helped him build lasting relationships, earning trust through transparency and results-driven work. His blend of technical expertise and leadership has positioned him as a key contributor to the 360 Building Group Consulting team and a respected figure in his field.
