BIOGRAPHY

MIKE RYLAND has over 25 years of experience in the restoration and construction industry, overseeing all phases of property claims from mitigation through reconstruction as a contractor. Having served as a loss project manager and regional manager, Mike understands the complexities of the repair process and is able to provide strategic insight on how to efficiently bring the claim to resolution. Mike has a strong knowledge of construction estimating practices and is well versed in Xactimate having utilized the platform for over 20 years.

In addition to his extensive field experience, Mike holds multiple designations with the IICRC, is HAZWOPER 40hr trained, and is certified with the AIAQC for Mold abatement. This comprehensive combination of field experience and qualifications enables Mike to provide the highest degree of service to any complex project.
