

AGRICULTURAL AND HORTICULTURAL CROPS

Superintendent - Ronda Magnusson, Hartford

Agricultural and Horticultural Crops exhibits will be open to the public during building hours each day of the Fair.

The Agricultural and Horticultural Crops Department features the crops of Iowa farms, orchards and vegetable gardens. The several hundred contests and thousands of crops entered in this department testify to the great variety and vigor of crops grown in Iowa and to the popularity of the State Fair's competitive events.

HORTICULTURAL CROPS - FRUITS AND VEGETABLES

Horticultural Crops include the garden and orchard crops. These generally require intensive cultural methods and the use of multiple practices for soil preparation, planting, growing, harvesting and disease, weed and insect control.

RULES

1. See General Rules and Regulations for the Agricultural and Horticultural Crops Department.
2. Selection of Fruit and Vegetables for Exhibits and Entries:
The main points to consider in selecting fruits and vegetables for entries or for exhibition are the quality, condition, representativeness and uniformity of the crops.
The exhibitor should first select specimens that are as near physically perfect as possible, free from insect and disease injury and high in quality, then choose from this selection those specimens which combine the ideal characteristics of the fruit or vegetable and which are most uniform in size, color and other characteristics.
The size of a specimen is only a major factor in the "jumbo" classes. Market standards for quality, condition, representativeness and uniformity are far more important.
3. It is highly recommended that exhibitors prepare their vegetables for exhibit as described in the publication 4H-462, entitled "Harvesting and Preparing Vegetables for Exhibit" available for a minimal charge at your local County Extension Office. **Remember the numbers of items for entries must be as indicated in this book, rather than as suggested in the publication, 4H-462.**
4. ENTRIES MUST BE ON WHITE DISPOSABLE PLATES FURNISHED BY THE EXHIBITOR. SEE GENERAL RULES & REGULATIONS FOR THE AGRICULTURAL AND HORTICULTURE CROPS DEPARTMENT.
5. If there is a class for your entry, it cannot be entered in the Any Other class.
6. The judges will consider the following:
 - (a) **Any exhibit lacking a variety name on the entry tag will be disqualified.** An exhibit incorrectly named may be renamed or reclassified by the judges.
 - (b) Any plate of fruit or vegetable which does not have the correct number of specimens will be disqualified.
 - (c) The judges may withhold premiums from exhibits they consider unworthy.
 - (d) **Fruit classes will be judged by the following standard: Form (15 points), Uniformity (35 points) and Condition (50 points).**
 - (e) **Vegetable classes will be judged by the following standard: Form (15 points), Size (15 points), Uniformity (20 points), Color (20 points) and Condition (30 points).**
 - (f) All fruits and vegetables shall be exhibited in its natural state. Exhibitors shall not wax the fruit. This will disqualify the entry or exhibit.
 - (g) The stems shall be left on all fruit exhibited, except for raspberries and blackberries. To do otherwise will disqualify the exhibit. Peaches and plums may be exhibited with or without stems.
7. Exhibitors shall not handle any entries or exhibits or materials on the display tables, except their own.
