

20 ACRES

of coverage per tank fill
can cover 1,200 to 1,600 acres per day

31 MPH

with spray swath width up to 50 feet
covering a greater width at a faster speed

40 GALLON TANK

330-pound dry tank | 660-pound max take-off weight
eliminates the need for multiple specialized machines

360° RADAR

+ Forward LiDAR - engineered for tough terrain access
easily operates in uneven, muddy, or otherwise inaccessible areas

INDUSTRIES BEST

industry-leading warranty

 **Terraplex**[™]
REVOLUTION DRONES

R-40 by Revolution Drones

Benefits for Farmers:

- Reduce Input Losses
- Lower Operating Costs
- Tough Terrain Access
- Multi-role Functionality
- Sustainable Operations

It can accurately spray fertilizers and pesticides while minimizing chemical waste. Powered by 38,000 mAh batteries, it delivers extended flight times and efficient coverage. The drone easily operates in uneven, muddy, or hard-to-reach areas and can quickly switch between spraying, spreading, and heavy-lift tasks while helping reduce environmental impact.
