

Course Outline | CorelDRAW Advanced

1 day(s)

Overview

You created, edited, formatted, and printed basic drawings. You now have a need to create a more professional brochure. In this course, you will use CorelDRAW to create the brochure and enhance its appearance with advanced colors, charts, graphics, and formulas.

Objectives

You will work with layers in the CorelDRAW application, use advanced tools for creating drawings, advanced output options for printing, and advanced techniques for text manipulation. In addition, you will also work with bitmap and vector graphics, simplify your tasks using VBA macros, and finalize the brochure for printing.

Target Student

This course is intended for experienced graphic designers and marketing communications professionals.

Prerequisites

To ensure your success in this course, it is recommended that you first take the following course: CorelDRAW Introduction or have equivalent knowledge.

Course Outline

Working with Pages

- Understand Page Elements
