Course Outline | InDesign Advanced

1 day(s)

Overview

In Adobe InDesign Introduction you were introduced to the many features that help you create professional-looking documents. Now you need to create much lengthier interactive documents that need to be accessed across a range of devices. In Adobe InDesign Advanced, you will learn advanced InDesign techniques to enhance the look and functionality of your documents.

Using Adobe InDesign, you can create interactive documents and export them for viewing in a web browser with various features such as buttons, page transitions, movies and audio files, hyperlinks, and animation. You have the ability to assign colour profiles and establish print presets. In creating longer documents, you'll be able to include such features as a table of contents, footnotes, cross-references, and an index.

Prerequisites

To ensure your success in this course, it is recommended that you take the following course: Adobe InDesign Introduction, or have equivalent knowledge; as this course is intended for students to expand their entry-level knowledge of Adobe InDesign by using advanced features and collaboration tools.

Course Outline

Preparing Documents for Multiple Formats

- Build Layout Versions
- Link Content
