

# Course Outline | Premiere Pro Introduction

---

1 day(s)

## Overview

You will use Adobe Premiere Pro to create a video program that combines video, audio, and still images.

## Prerequisites

Before taking this course, students should be familiar with the basic functions of their computer's operating system such as creating folders, launching programs, and working with windows. Students should also have basic Windows application skills, such as copying and pasting objects, formatting text, saving files, and so on.
