AGRIMAX TERIS

RADIAL TRACTOR TIRES

Today's high-power harvesters require tyres that are able to support heavy equipment and loads without damaging the crops. BKT is committed to provide you with radial tyres at the cutting edge to increase your yield. AGRIMAX TERIS is the right partner for all your combined operations. Excellent traction properties and high load capacity are its essential features providing best performance in all harvesting operations. The special sidewall protection and a reinforced shoulder increase resistance – thus extending the product life-cycle – also in harsh conditions and if there are stubbles in the fields.
