## P R E F A C E

The strong support extended to the Qatar Race & Equestrian Club by H.H. The Amir of Qatar, Sheikh Khalifa Bin Hamad Althani, and H.H. The Heir Apparent, Sheikh Hamad Bin Khalifa Althani has encouraged the President, the Board members and the staff of the Club to spare no efforts for keeping and preserving the Strain of the Arabian Horses in State of Qatar completely pure and not mixed for any purpose. Especially the Qatari pure Arabian Horses racing from pure Arabian Stallions and Mares and also the horses registered in Stud books at The World Arabian Horses Organization (WAHO).

This infinite support extended by H.H. The Amir, and H.H. The Heir Apparent encouraged the club management to proceed forward for joining the World Arabian Horses Organization which concerns itself in this vital aspect; Consequently the Club became one of WAHO members. Specialists have been instructed to prepare for the Stud Book for State of Qatar for Arabian Horses to be given to WAHO for aproval and to be considered among the other Stud Books registered at WAHO.

The first volume of the Qatari Stud Book will be published by the club administration for Qatari readers, especially the owners of the pure Arabian Horses in the State of Qatar after being authorised by WAHO and recognised nationally.

Finally, we ask almighty God to lead us to the proper way for the benefit of our grace Arabian national folklore.

Peace, merciful and blessing of God bestow upon you.

## INTRODUCTION

With the help of God, we issued the first volume of the Qatari Stud Book of pure Arabian horses, so this book is divided into three sections.

Section one contains pure Arabians born in Qatar from stallions and mares Qatari, and from registered stallions and mares. The total number of these horses amounts to ( 26 ) and these registered horses are classified according to their ages.

Section two refers to imported Arabian horses from already WAHO accepted Stud Books. These registered horses are classified in this book to the date of importation, and the total number of these horses amounts to (105) they are numbered to continue the numbering of section one, so that the last horse in this section will carry number (131).

Section three contains the dead horses mentioned in the first and second sections of this book.

The index includes all the horses in this volume classified in alphabetical order.
