EM 933 SUPER

EM 933 SUPER has been specially designed for excavators in digging and loading operations. Its exceptional sidewall design with a protruding kerb rib enables the close contact between two tires eliminating the need for a special rubber ring to prevent stone penetration. The unique tread design provides superior traction under heavy-duty service conditions. Additional features of EM 933 SUPER are outstanding riding comfort and enhanced self-cleaning properties.

	Tire size	Type	PR	LI/SS	Version	O.W.	O.D.	SLR	RC	RIM
