PRODUCT DATA SHEET

Radial

RIDEMAX FL 699

RADIAL TRANSPORT TIRES

RIDEMAX FL 699 is the perfect BKT tire for road applications with trailers and tank trucks. This All Steel tire stands out for its high mileage and durability. The reinforced bead ensures better stability even at high speeds. Even if this radial tire has been designed for a 90% on-the-road usage, i.e. for transport in farming applications, the new RIDEMAX FL 699 also provides excellent performance in the fields. The tire has been designed with a particular focus on load capacity to decrease the number of transport cycles. Good news also to farmers who know the sensation when a trailer seems to compromise driving: RIDEMAX FL 699 ensures an extraordinarily comfortable ride providing safety and driving control.
